

PARTNERSHIP

2022 / 2023

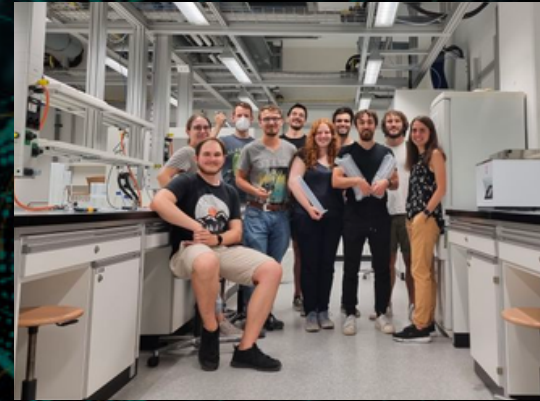

[Studentbiolab.ch](https://www.studentbiolab.ch)

The Student Biolab is seeking its first official sponsor to join us for our launch year. Your organization will be an "Inaugural Partner" supporting one of the first student-run biolabs of its kind & building a direct connection to our student community.

We are building a platform for students to work on independent research projects in life science, biotech and synthetic biology. We aim to support student initiatives by providing lab space and a community. Over the past 6 months we have assembled a motivated team, organized community events and set up a lab for an optogenetics workshop. Building on the initial success, the Student Biolab is planning to expand our community, onboard more research projects, teach workshops and host meetups with academic and industry leaders for the 2022/2023 timeline.

PLATINUM | 10,000 CHF

As a Platinum Partner, we will work closely with your organization to build a strong connection with the student community of ETH & UZH. Through the Engagement option, your organization can directly help plan events with the Student Biolab.

- Engagement Presence at our events
 - Short presentation or booth
 - Cohosted Ideathon or workshop
- 2x messages on social media
- 2x sponsored messages on our newsletter
- Logo featured on our website & flyers
- Recruiting engagement with target students

GOLD | 5000 CHF

As a Gold Partner, you will have a connection to the Student Biolab community & brand. We will enable a direct line of communication to the student community.

- Logo featured on our website & flyers
- Message on social media
- Sponsored message on our newsletter
- Recruiting engagement with target students

We are open to additional partnership proposals.
